Collection
Collection information will be provided on the auction website. Where applicable, additional or updated information will be provided by email after the auction has closed. Buyers are requested to follow the most recent information and instructions provided by Dome Auctions.

Collection Conditions
Collection is only permitted after payment has been confirmed by Dome Auctions. Buyers will find a QR collection code on the invoice, which must be presented when collecting the purchased lots. Collection is only possible on the specified dates and times. If collection takes place later than agreed, any resulting storage, rental or other additional costs may be charged to the buyer, unless otherwise agreed in writing. All applicable safety regulations at the collection location must be observed. Required personal protective equipment, such as safety footwear, must be worn, and instructions from on-site personnel must be always followed.

Dismantling
The equipment has been carefully dismantled and is ready to be loaded by the dismantling contractor. Loading will be coordinated centrally to ensure the safe and efficient removal of the equipment. Additional charges apply for this service and will be displayed when placing a bid. These costs must be paid by the buyer in addition to the purchase price and other applicable auction costs.

Export
All deliveries by Dome Auctions are made on an Ex Works (EXW) basis in accordance with the applicable Incoterms®. The goods are made available to the buyer at the specified location. Where applicable, dismantling and loading must be carried out by the designated contractor at the buyer's expense. This mandatory service does not change the EXW delivery terms. The buyer remains responsible for onward transportation, insurance and all export and import formalities, including customs clearance, as well as the related costs and risks.

VAT
Where the buyer is established within the European Union and provides a valid VAT identification number, 0% VAT may be applied, subject to compliance with all applicable VAT requirements and the provision of any required supporting documentation. As a mandatory requirement, an export declaration must be completed and signed at the time of collection.

Where the buyer is established outside the European Union, the applicable VAT amount will be charged as a security deposit pending proof of export. The deposit will be refunded only after Dome Auctions has received and approved sufficient and verifiable documentation confirming that the goods have left the European Union. If sufficient proof is not provided, the VAT amount will remain payable and will not be refunded.

Payment
The invoice will be sent by email immediately after the auction has ended and will also be available in your account on the website. As the buyer, you must pay the full invoice amount within 48 hours after the purchase agreement has been made available. The payment details are stated on the invoice.

Quantities, Dimensions and Weights
Any stated quantities, capacities, dimensions, volumes and weights are provided for guidance purposes only. No rights may be derived from such information. As the buyer, you are responsible for verifying these details. Although the information has been compiled with due care, neither the seller nor Dome Auctions provides any warranty or guarantee regarding its accuracy, completeness or currency.

General Terms and Conditions of Use of Dome Auctions France
In addition to these Specific Auction Terms and Conditions, the General Terms and Conditions of Use of Dome Auctions France apply. These replace the standard General Terms and Conditions of Use of Dome Auctions for this auction. In case of any contradictions between the General Terms and Conditions of Use of Dome Auctions France and these Specific Auction Terms and Conditions, the Specific Auction Terms and Conditions shall prevail. By placing a bid, the buyer declares that, in addition to the Specific Terms and Conditions of Dome Auctions, he expressly and unconditionally agrees to the applicable General Terms and Conditions of Use of Dome Auctions France as well as the terms and conditions of the party entrusted with the dismantling.

Subject to allocation
Certain lots or combinations of lots may be offered subject to confirmation. This will be indicated on the relevant lot. In such cases, the seller reserves the right to accept or reject the highest bid. If you are the highest bidder on a lot offered subject to confirmation, you will be notified of the seller's decision no later than five working days after the auction has closed, or earlier if possible (excluding Saturdays, Sundays and Dutch public holidays).

Minimum price
A minimum price may apply to certain lots or combinations of lots.

Combination Lots
Lots that form part of a combination will first be auctioned individually. After the last individual lot has closed, the combination lot will be opened for bidding. The opening bid for the combination lot will be set at the total of the highest bids on the individual lots, increased by 5%. If a bid is placed on the combination lot, the combination will be awarded as a whole. If the combination lot is not sold or awarded, the highest bids on the individual lots will remain valid

Extension
If a bid is placed during the final two minutes before a lot closes, the closing time will automatically be extended by two minutes. Each subsequent bid placed within this extension period will result in a further extension of two minutes until no additional bids are submitted.

Lots Without Bids
Lots for which no bids have been placed during the auction will be reopened for bidding for a period of 30 minutes after the auction has closed. Any bids placed during this period will be subject to the standard extension procedure.
