Collection information: The buyer must bring their invoice with QR code to the collection location. The buyer is solely responsible for dismantling, loading, and transporting the purchased items. Dome Auctions accepts no liability unless stated otherwise. Collection is only possible according to the stated schedule. In case of late collection, the buyer is liable for any incurred costs (rent, insurance, or other additional costs), unless other arrangements have been made with the seller. In principle, no loading equipment such as forklifts or cranes is available. In exceptional cases, loading equipment may be made available upon request and at an additional cost.

Payment details: The invoice will be available in the buyer's "Profile" section on our website and will be sent by email immediately after the auction closes. Buyers may only take possession of their lots once the full outstanding amount has been received by Dome Auctions.

VAT information: The statutory VAT rate is 21%. All non–EU buyers must pay the VAT amount as a deposit. General Terms of Use: : In addition to these specific auction conditions, the General Terms of Use apply. In the event of discrepancies between the General Terms of Use and these specific auction conditions, these specific auction conditions shall prevail

Combinations: All lots within a combination are first sold individually. After the last lot is sold, the total of the bids is increased by 5%. This forms the opening bid for the combination. If the combination is sold, it replaces the individual bids. If the combination is not sold, the individual bids remain valid.

Viewing day: There will be a scheduled viewing day on 02–10–2026.

Extension: If a bid is placed in the last 2 minutes before the lot closes, the closing time will be extended by 2 minutes. With each subsequent bid, the closing time will again be extended by 2 minutes until no further bids are placed.

Lot without bids: For all lots on which no bids have been placed, the closing time will be adjusted to half an hour after the last closing time of lots within this auction.

Quantity, capacity, dimensions and weight of lots: If a lot description contains details about quantities, capacities, dimensions, or weight, these details are indicative only and no rights can be derived from them. Bidders must satisfy themselves as to the accuracy of this information.
